### Description of the Manulife Risk Meter

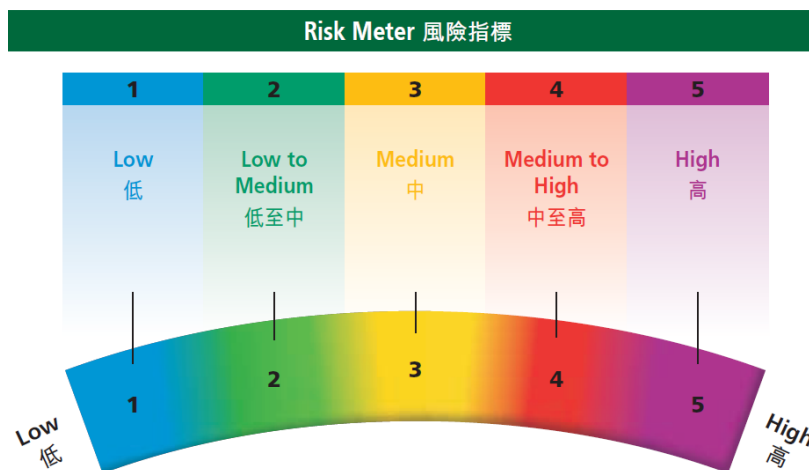

The risk level is represented by the Manulife Risk Meter, a 5-level risk continuum from 1 to 5, which signifies the risk profile of the fund. The more sensitive a fund is to the change of market conditions, the more volatile it is and therefore the higher its risk level is indicated by the Manulife Risk Meter. Likewise, a fund less sensitive to market condition changes has lower volatility and is therefore regarded as bearing lower risk on the Manulife Risk Meter.

Each risk level in general reflects the corresponding risk profile as follows:

### 有關宏利風險指標

風險水平由一個具有五個級別的宏利風險指標表示，以表示基金的風險程度。當宏利風險指標內所標示的風險級別愈高，就代表該基金對市場狀況的轉變愈敏感，波幅愈大；相反，當宏利風險指標內所標示的風險級別愈低，該基金對市場狀況的轉變愈不敏感，波幅愈小。

每個風險級別一般反映以下的風險程度：

#### Remarks:

The 5 risk levels in the Manulife Risk Meter are determined on the basis of a number of factors relating to the underlying investments of funds, including the types of asset classes and their respective target weightings, the breadth and geography of diversification, the historical volatility and capitalisation of the relevant markets, investment strategy and the presence of any guaranteed investment returns.

Please note that the volatility and the risk level of a fund may change over time and the future market volatility may not follow the historical volatility. The composition of the underlying investments of each fund may be different from that of the referenced market index. The Manulife Risk Meter will be reviewed and updated from time to time.

Higher possible gains generally imply higher possible losses. The lowest risk level does not mean risk-free

#### 註解：

宏利風險指標內五個風險級別的釐定，乃基於多項因素，包括基金旗下資產類別及其相應的目標比重、投資項目的覆蓋範圍及地域分布、有關市場過往的波幅及資本總額、投資策略和基金有否提供回報保證。

請注意子基金的波幅及風險級別或會因時不同，將來波幅未必跟隨過往幅度。每隻子基金的旗下實際投資項目成分與相關市場指數或有不同。宏利風險指標將不時進行檢討及更新。

較高回報潛力一般意味較高的虧損機會，而最低風險級別並非代表沒有風險。

The 5-level risk categorization is provided by Manulife Asset Management (Hong Kong) Limited.

Information in this description of the Manulife Risk Meter should not be regarded as investment advice on, an offer to sell, or a solicitation for an offer to purchase any financial products and services. Neither should such information be regarded as a substitute for professional advice.

五級風險分類由宏利資產管理（香港）有限公司提供。
